Experience

○ Postman

2023 - present

Student leader

I am a Postman Student Leader with a passion for APIs. I have been working on the Postman platform for the past year, and I have learned a lot about how to use it to make basic API requests. I am also a strong advocate for API literacy, and I recently delivered a session on API 101 at my college

Project

Google Drive clone

Tech stack - React, Material UI, Firebase

I made this google drive clone using pure React for UI i use material ui for the backend part I use the firebase .

Form Validator

Tech stack - React, Javascript

This simple form validator is created using simple React and CSS where it shows whether the given information is right or not .

Portfolio website

Tech stack - React, Tailwind CSS, React Router

In making my portfolio website using React 18 and TailwindCSS I have also used the React icons I hosted my website on Netlify.

Facebook web clone

Tech stack - HTML, Tailwind CSS, Javascript

I made this project just to check my basic HTML and CSS skills to move forward in my journey .
